## Profile

---

Highly motivated fourth-year undergraduate at Uva Wellassa University, specializing in Computer Science and Technology, with a keen interest in **Software Engineering**. Passionate about creating innovative solutions as part of a dynamic team. Adept at both front-end and back-end development, with expertise in technologies such as React.js, Node.js, Python, Django, and MySQL. Demonstrates strong problem-solving abilities, effective communication, and organizational skills. Committed to continuous personal and professional growth, meeting deadlines, and contributing to team success. Eager to leverage technical expertise and creativity in Software Engineering to build impactful and scalable solutions.

## Education

---

**Uva Wellassa University of Sri Lanka**  
*Bachelor of Computer Science and Technology*

*Sep 2021 – Present*

- CGPA: 3.1/4.0

**J/Yarton College**  
*Advanced Level (G.C.E A/L)*

*Jan 2016 – Aug 2019*

- Results: B, 2 C (Physical Science stream)

## Technical Skills

---

- Programming Languages: *JavaScript, Python, Java, PHP*
- Web Development: *React.js, Node.js, HTML, CSS, Bootstrap, Django*
- Databases: *MySQL, MongoDB*
- Tools and IDEs: *Figma, Visual Studio Code, WebStorm, IntelliJ IDEA, NetBeans, Eclipse, Postman, GitHub, phpMyAdmin, XAMPP, AWS*
- Version Control: *Git*

## Soft Skills

---

- |                         |                           |
|-------------------------|---------------------------|
| ◦ Programming Languages | ◦ Database Management     |
| ◦ Problem Solving       | ◦ Self motivation         |
| ◦ Version Control       | ◦ Effective Communication |
| ◦ Web Development       | ◦ Quick Learning          |
| ◦ Critical Thinking     | ◦ Time Management         |
| ◦ Team Collaboration    |                           |

## Experience

---

**Data Entry Operator**  
*Venpaa (PVT) LTD - Online Bookstore in Sri Lanka*

*Aug 2020 – Aug 2021*

- Managed and processed large volumes of data for the online bookstore.
- Ensured data accuracy and integrity while meeting tight deadlines.
- Streamlined data entry processes to improve efficiency.

## Academic Projects

### Final Year Research

Oct 2024 - Present

- A Deep Learning Approach to Detecting and Classifying Mudras in Bharatanatyam Dance.

### Eduzent (Group Project)

[github.com](#) 

- Developed a comprehensive Institute Monitoring System as part of a university group project.
- Technologies: React.js, Node.js, CSS, Bootstrap, MongoDB.

### Bodimate (Group Project)

[github.com](#) 

- Collaborating on an Online Boarding Booking System for university students.
- Technologies: React.js, Node.js, CSS, Bootstrap, MongoDB.

### Movie-API (Individual Project)

[github.com](#) 

- Developed a CRUD application for managing movie data.
- Technologies: React.js, Node.js, CSS, Bootstrap, MongoDB.

### PRM Project (Group Project)

[github.com](#) 

- Contributed to building an advanced programming project with React.js and Django.
- Tasked with initiating the project and implementing dashboard themes.

## Achivements

< CODESTORM/ > - YGC Innovation Festival 2023 - Participant

2023

## Certification

Front-End Development (CODL) - Moratuwa University

[Certificate](#) 

Java (Basic) - HackerRank

[Certificate](#) 

JavaScript (Basic) - HackerRank

[Certificate](#) 

MERN Stack Fundamentals - Great Learning

[Certificate](#) 

Introduction to MERN Stack - Simplilearn
